EDUCATION

Georgia Institute of Technology Atlanta, GA

Bachelor of Science in Computer Science, Dean's List **Threads:** Information Internetworks and People

Minor: Financial Technology (FinTech) **Expected Graduation:** May 2026

Relevant Coursework: Object Oriented Programming, Data Structures, Algorithms, Computer Organization

and Programming, Databases, Statistics, Project Management Methodology

EXPERIENCE

Automotive LiDAR, Georgia Tech Research Institute

January 2025 - Present

- Java, ROS, Python, Linux
- · Programmed robot navigation algorithms using LiDAR
- Improved obstacle detection accuracy by 20% in autonomous test runs

Teaching Assistant, Georgia Tech

April 2025 - Present

- Java, Data Structures, Algorithms
- · Led recitation for Georgia Tech computer science students learning data structures and algorithms
- Debug students code, hold office hours, grade exams and assignments

PROJECTS

WanderSync | Full Stack | Java, XML

August 2024 - December 2024

- Android app that allows users to collaboratively plan travel itineraries
- Implemented data visualization graphs to help users track trip progress and activity completion

StoreView | Full Stack | Javascript, React, HTML, CSS

February 2025

- Built a web application that calculates impression scores for potential storefront locations
- Integrated data science and analytics to provide insights for business owners

MrktMind | Frontend Coder | Javascript, CSS, React, HTML

September 2024

- · Created a marketplace web app leveraging data science to determine optimal price points
- Designed a user-friendly interface for personalized product recommendations

Hacklytics: Traveraal.ai Hotel Finder | Backend Coder | Python, VS Code, Github

February 2024

- Engineered a web app utilizing Traveraal.ai's dataset to enhance hotel search functionality
- Integrated AI with Qdrant for similarity searches based on user input
- Leveraged GPT-2 for natural language processing to generate user-friendly explanations

LEADERSHIP

FASET Leader, New Student Transition Program Atlanta, GA

February 2024 - August 2024

- Mentored over 450 new students during orientation, helping them with personalized guidance
- Reduced course registration errors by 30% through proactive support and walkthroughs
- · Boosted event attendance through creative engagement strategies and peer-led icebreakers

SKILLS

- Frontend: HTML, CSS, JavaScript, React
- Backend: Java, Python, APIs, JavaScript, C, TypeScript, MySQL
- Tools: VS Code, Github, Streamlit, Android Studio, Firebase, ROS, Postman, Docker
- Soft Skills: Leadership, Time Management, Communication, Adaptability, Self-Motivation, Collaboration
